

A Day in My Life: Baby

Things to think about when assessing the appropriateness of the daily routine of a baby.

(Adapted from tools developed by Hampshire Safeguarding Children Board)

These questions provide **prompts** for practitioners when engaging in a series of conversations with a parent/carer to explore and understand a baby's lived experience.

The questions can be selected as appropriate and adapted to suit the communication needs of the parent/carer. It is **not** intended that that all questions/sections are answered in a single conversation. Information provided will need to be triangulated with the direct observations of professionals and information from a range of sources.
